Education

Indian Institute of Information Technology Gwalior

Nov 2022 – Jul 2027

Integrated Bachelor's and Master's of Technology in Information Technology

CGPA: 8.14

Academic Coursework

- Data Structures and Algorithms
- Database Management Systems
- Computer Networks
- Operating Systems
- Object-Oriented Programming
- Cloud Computing

Experience

Developer – Research Implementation

Dec 2024 – Apr 2025

Dermadetect — ML-Based Diagnostic Platform

- Built a **responsive React UI** with optimized FormData-based image uploads, reducing request latency by **35%**.
- Designed and deployed a **scalable Flask backend**, serving both web and Kotlin apps, securely routing images to ML pipelines while maintaining **500+ concurrent requests at 99.9% uptime**.
- Integrated **dual ML models per request** for real-time predictions (<200 ms), cutting diagnostic time by **60%**.
- Applied **software engineering best practices** (modular APIs, unit testing, Git workflows) to ensure reliability and production readiness.

Software Developer Intern

May 2025 – Jul 2025

Netlarx Pvt. Ltd.

- Developed the **Elanters Partner App**, a full-stack platform with **React.js** and **Node.js**, enabling onboarding and management for 200+ service partners.
- Built **secure backend services** for authentication, booking, and invoicing, cutting manual errors by **20%** and ensuring scalable performance.
- Collaborated in an **agile cross-functional team**, adapting to shifting priorities and contributing across frontend, backend, and workflow design to deliver milestones on time.

Projects

StreamLy – Real-Time Communications Platform | *Node.js, TypeScript, Mediasoup, Kafka, Redis, AWS*

Aug 2024

- Developed a **scalable real-time platform** in **Node.js + TypeScript** with Mediasoup (C++ core) for one-on-one and group video/audio calls, leveraging an **event-driven architecture**.
- Built a responsive **Next.js + React frontend** with ShadCN and Tailwind CSS, delivering seamless multi-device experiences with **SSR and dynamic routing**.
- Designed a **robust backend** using Kafka for messaging, Redis for session management, PostgreSQL + Prisma for structured data, and AWS S3 for media storage, achieving **99.9% uptime under high load**.
- Implemented **secure JWT authentication** and containerized deployment with Docker, using Postman, ESLint, and Prettier for testing and production-grade maintainability.

OctoWrap – Personalized Mobile Cover Designer | *React, Next.js, Prisma, Clerk, Stripe, Sharp*

Jan 2024

- Built an interactive **product customizer** in React + Next.js, reducing page load times by **35%** through SSR and client-side optimizations.
- Integrated **Clerk for authentication** and **Stripe for secure checkout**, with webhook-driven automation achieving a **99.9% successful payment rate**.
- Engineered an **image-processing pipeline** with Sharp + UploadThing, ensuring **100% reliable uploads** and **40% faster preview rendering**.

Technical Skills

Languages: C++, JavaScript, TypeScript, Python, Java, C, SQL, Bash

Frameworks & Libraries: React.js, Next.js, Redux, HTML5, CSS3, Tailwind CSS, Bootstrap, Node.js, Express.js, Flask, GraphQL, Axios, Jest, Mocha

Databases: PostgreSQL, MySQL, SQL Server, MongoDB, Redis, Prisma, Mongoose, pgAdmin

Tools & Platforms: Docker, Kubernetes, Git, GitHub, GitLab, VS Code, Linux, NGINX, AWS, GCP, Figma, npm, Yarn, Webpack, ESLint, Prettier

Achievements and Contributions

- Secured **1850+** LeetCode rating with **1000+ problems solved**; earned the **Knight badge**.
- Competitive Programming: **Codeforces Specialist (Max 1515)** 📄 (Top 15%) and **CodeChef 4 (1800+)** 📄.
- Cracked GATE CS/IT in 3rd year with **AIR 1700** among ~200k candidates.
- Contributed **650+ commits** on GitHub in last year, using GitHub Actions for CI/CD in team projects.
- Mentored **400+ students** in Web Dev & CS, building **leadership, adaptability, and communication** skills.
